Gun Safety Saves Lives

How to: Ask about safe and secure gun storage

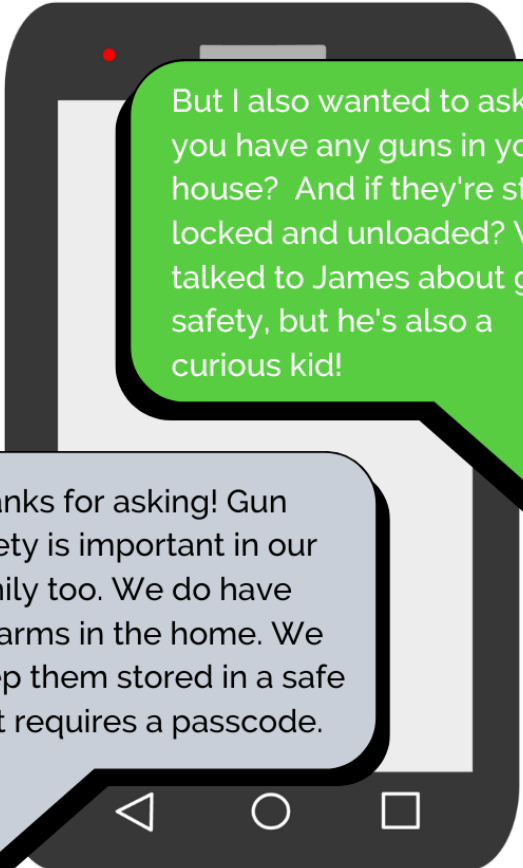

Gun injuries are one of
the leading causes of
death for children and
young adults in Polk
County. Learn how to talk
to your friends and family
about gun safety.

Polk County Health Department

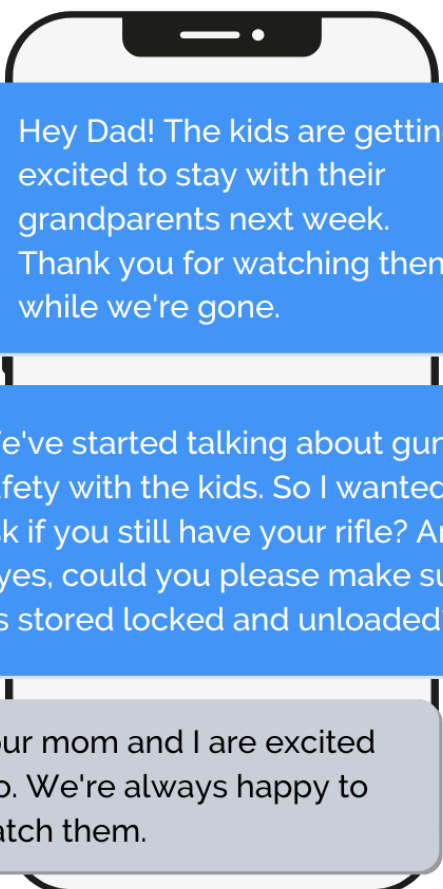

We're excited to have James over this Friday! Does he have any allergies I should be aware of?

Hey! James is so excited too. Thank you for asking. He has NO allergies, and he's not a picky eater either. :)

But I also wanted to ask if you have any guns in your house? And if they're stored locked and unloaded? We've talked to James about gun safety, but he's also a curious kid!

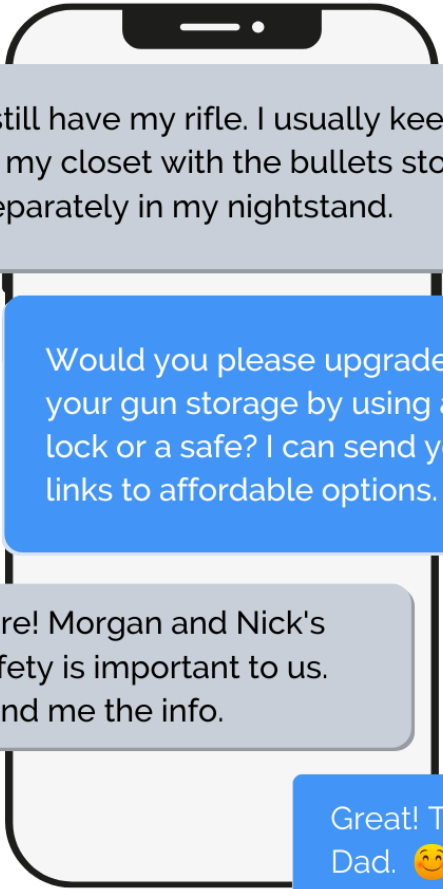

Thanks for asking! Gun safety is important in our family too. We do have firearms in the home. We keep them stored in a safe that requires a passcode.

Hey Dad! The kids are getting excited to stay with their grandparents next week. Thank you for watching them while we're gone.

We've started talking about gun safety with the kids. So I wanted to ask if you still have your rifle? And if yes, could you please make sure it's stored locked and unloaded?

Your mom and I are excited too. We're always happy to watch them.

I still have my rifle. I usually keep it in my closet with the bullets stored separately in my nightstand.

Would you please upgrade your gun storage by using a lock or a safe? I can send you links to affordable options.

Sure! Morgan and Nick's safety is important to us. Send me the info.

Great! Thanks Dad. 😊
